

Dry-Cleaning Wet-Cleaning

Products and Service That Impress

PARISER INDUSTRIES
91 Michigan Avenue, Paterson, NJ 07503
(800) 370-SOAP | (973) 569-9090 | pariser.net

*Pariser Industries manufactures
its products in conformance with
ISO 9001 Standard requirements.*

Pariser's dry-cleaning and specialty products perform for all textile maintenance applications, including traditional perchloroethylene (perc), hydrocarbon and alternative solvent systems.

Dry-Cleaning Products

CORONATION Premium-grade coconut oil-based detergent for hydrocarbon solvent systems.

E.Z.DET Ready-to-use injection detergent for non-immersion dry-cleaning machines.

MAXIM Economical detergent with anionic and nonionic surfactants, citrus-based turpene solvents, anti-static agents, and anti-microbial agents.

MID-CAP Detergent formulated for smoke and fire restoration with advanced odor mitigating and encapsulating properties.

MONARCH Phosphate-free, medium viscosity, anionic dry-cleaning detergent with significant resin-based sizing.

PRO MAX AAP Cationic dry-cleaning detergent for injection system dry-cleaning applications. It is compatible with perc and hydrocarbon systems.

REGAL Non-ionic, moistureless, coconut oil-based concentrated detergent.

This list is a small representation of the products Pariser offers. Contact your Pariser representative or email info@pariser.net to learn more about the products that would be the most beneficial for your needs.

Ancillary Products and Spotting Chemicals

BIO CHARGE Odor control and solvent maintenance additive for today's hydrocarbon systems.

IDET Dry-cleaning, dry-side spray spotter for pre- and post-spotting applications on both dry- and wet-side stains, in perc and hydrocarbon systems.

INK-OUT Spotting product for the removal of most ink, and many crayon, grease, tar, and oily-type stains.

ODOR-RITE Concentrated, solvent soluble re-odorant for maintenance of dry-cleaning solvent, and treatment of specialty loads requiring odor adjustment in either perc or hydrocarbon systems.

P.O.G. Paint, oil, and grease remover for perc systems.

PARA-TANN Tannin stain remover used for beverages, liquor, tea, coffee, grass, and other tannin-type stains.

PARALINE BUFF Dry-cleaning solvent treatment additive designed to combat the adverse effects of free fatty acid formation in the dry-cleaning system.

Wet-cleaning is a cleaning process in aqueous or water-based systems for delicate garments customarily labeled as dry-clean only. Pariser uses the safest, most hygienic, and economical methods by working with experienced operators, garment care specialists, and state-of-the-art automated dispensing technology.

Wet-Cleaning Products

ACTIVATE Versatile oxygen bleach-based cleaner for mild to warm water conditions in both conventional and high-efficiency (HE) washing machines.

AQUA VELVET All-in-one, one-shot wet-cleaning product which combines an acid-based detergent, stain removers, and fabric conditioners.

BIO-ZYME Ready-to-use enzyme formulation designed to liquefy and digest complex proteins, cellulose, starch, fats, oils, and greases at an accelerated rate in the washer or at the spotting board.

CEXP Highly active odor-counteractant for numerous applications involving the removal of organic-type odors, such as bodily excretions and smoke-related sources.

CITRASOL Citrus-based additive developed for washing durable press, polyesters, polyester-cotton, and other hard-to-clean fabrics.

CLOUD-DET Detergent additive safe for wide ranges of fabric and garment types that is formulated to achieve optimum cleaning results in non- or limited-immersion cleaning machines.

ENCORE A controlled sudsing, high concentration wet-cleaning detergent product designed for superior performance on the acid side in the aqueous washing process of fine garments and textiles.

HYDROCON Finishing agent for fabrics requiring a more relaxed and softer hand. This product conditions suedes and leathers which have been wet-cleaned.

LS-100 A blend of synthetic liquid sizing and natural corn starch for synthetics, blends, and cottons.

SHOT-SPOT A versatile, all-purpose stain remover.

STAND UP Highly concentrated, liquid synthetic sizing designed to provide significant body and starch-like rigidity to textiles in an aqueous environment.

SYMPHONY Specially formulated wet-clean detergent for controlled sudsing and premium garment hand.

ULTRA Heavy duty liquid detergent developed for washing durable-press polyesters, polyester-cotton, and other hard-to-clean fabrics using hard water.

WET-DETTE Wet-cleaning detergent compatible with all fabrics that performs on the acid side to prevent dye loss on dry-clean only fabrics.

PARAPLEX P2 Polymeric-based boiler treatment.

PROTEIN STAIN REMOVER Protein spotter used in the removal of blood, urine, milk, perspiration, and other protein-type stains.

SILKY Pre-spotting aid, both as a silk spotter and as a general leveling agent for moisture sensitive fabrics.

SPIN DR. Deep cleans spin disc filters far more effectively than the standard spinning process. It lowers filter pressure and improves system maintenance.

SPRAY-TEX Spray spotter that reduces post-spotting by pre-treating soiled garments before cleaning.

TASKMASTER Multi-purpose stain remover formulated for use in both perc and hydrocarbon solvents.

TEX-SETTE Odorless sizing for dry-cleaning systems and other textile preparation applications that contains a brightener to enhance colors.
